

This Journal is devoted to the science and technology of paint application, electrodeposition, vitreous enamelling, galvanizing, anodizing, metal spraying and all metal finishing processes.

Official Organ of the
INSTITUTE OF VITREOUS ENAMELLERS

Head Office: JOHN ADAM HOUSE, 17-19 JOHN ADAM STREET, ADELPHI, LONDON, W.C.2

Index to Volume 7 (new series)

JANUARY TO DECEMBER, 1961

Subject Index

	PAGE		PAGE
A ccelerated Weathering of Organic Finishes, The—A Critical Study	129	C hromate Treatments and Coatings. A Survey of Non-electrolytic	169
Aluminium, Testing Anodized	181	Chromium and Heavy Nickel Deposits and their Influence on the Fatigue Strength of the Basis Metal, Stresses in Hard	441
Anodizing, A Report on the Conference on,—Organized by the Aluminium Development Association	451	Chromium Plating, A Survey of Recent Developments in	89
Anodizing Practice and Knowledge, Some Recent Advances in	145	Coatings for High-Temperature Protection, Multi-layer Metal-Ceramic	139
Atlas Plating Works Ltd., Thirty-five years of Outplating Experience—A Description of Plant Techniques at the Battersea Works of 5, 101		Crack Formation in Nickel Deposits, The Influence of Internal Stress on	371
Automatic plant using Solvents for Degreasing, Some Advantages of	187		
Automatic Plating for Brassworking Industry (Developments at Peglers Ltd., Doncaster) ...	414	D egreasing, Some Advantages of Automatic Plant using Solvents for	187
